Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Surinder Sacher (Registration No. 34,423) on March 17, 2005.
3. The application has been amended as follows:
Claims 29, 30, 57, 58, 65 and 67 have been cancelled.

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance:

The instant invention recites binarization apparatus comprising a block division unit that divides a multi-valued image into blocks and a binarization threshold value setting unit that sets a binarization threshold value to be used when binarizing the multi-valued image. A low luminance value removal unit inputs luminance values of each pixel forming the selected object blocks from among luminance values output by luminance value output unit, removes luminance values that are lower than the low luminance threshold value set by low luminance threshold value setting unit, and outputs only those luminance values which exceed the low luminance threshold value. A mean luminance value calculator calculates mean luminance values using luminance values from which luminance values that do not reach the low luminance threshold value in a block have been removed. The low luminance threshold value setting unit sets the low

luminance threshold value based on mean luminance values of blocks adjacent to the object blocks, and the binarization threshold value setting unit sets the binarization threshold values of the object blocks based on mean luminance values of the blocks.

The instant invention, in other embodiments, further recites an interpolation block setting unit for setting interpolation blocks which cover pixels extending over two or more adjacent object blocks from among object blocks selected by the object block selection unit.

The features identified, in combination, are neither discussed nor suggested by the prior arts of record.

5. Claims 1-24, 27, 28, 31-52 and 55, 56, 59-64, 66 and 68 are allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
